

Isopropyl Alcohol (IPA) Wipes - 99.8%

1610-WIPES

Flux removers (defluxers) remove flux residues and other contaminants left by manufacture, rework, or repair of printed circuit boards. Residues from higher, leadfree temperatures are more baked on and harder to clean. Techspray flux removers have been proven very effective at removing fluxes baked on at leadfree temperatures.

Pre-saturated wipes with 99.8% pure isopropyl alcohol

Convenient, low linting wipes are presaturated with 99.8% pure IPA.

Specifications: ACS reagent grade IPA, Fed spec TT-1-735A (amend 3, notice 2) grades A&B, ASTM D770-05.
