

## Economy Duster

1673

Techspray air dusters blow away dust, microscopic contaminants, lint, metallic oxide deposits and other soils that can damage sensitive electronics. When these contaminants get in the way of vents or fans within the device, they create a build up which leads to overheating and/or shortages.

Properly cleaning your electronics on a regular basis keeps your systems cool and working optimally, extending the life of the product. If you begin to notice your fans are becoming increasingly loud, or your systems are not running as efficiently, it may be time to treat them.

Choose the gas duster best suited for your application.

### Economical HFC-152a duster

Difluoroethane, (Hydrofluorocarbon) is commonly used for a quick dust removal on electronic devices. Our economy size provides the best value at a great price. This product is safe to use on plastics and does not leave residue.

**Not to be used on our around open flames or hot surfaces or on electrical power equipment.**

Economical HFC152a based duster. Note: not for use on powered electrical equipment, on hot surfaces, and around open flames or sparks.

- Best value & 30% more volume
- Lower global warming potential / 10% of HFC-134a
- Non-ozone depleting
- Moisture free
- Zero residue
- Safe on plastics
- VOC exempt
- Velocity 11.4 m/s

## Product Packaging

**1673-10S**  
Economy Duster  
10 oz  
12 units/case

## Technical Information

### Chemical Composition

CHEMICAL NAME	CAS #
1,1-difluoroethane (HFC-152a)	75-37-6

## Environmental Policy

Techspray is committed to developing products to ensure a safer and cleaner environment. We will continue to meet and sustain the regulations of all federal, state and local government agencies.

## Resources

Techspray products are supported by a global sales, technical and customer services resources.
