

UPDATE FOR HEAVY DRAWER UNIT

Our Workshop heavy drawer units have been updated. From now on drawer units 70, 90 and 130 have fully opening drawers. At the same time drawers move now smoother and quieter than before.

Also from now on we can offer two different loading options for all combinations. Present combinations will have loading capacity 75 kg in each drawer. Same combinations will also be available with 200 kg max load in each drawer. (50 mm high drawer is available only with 75 kg loading capacity.)

From now on each combinations have two item codes to choose from.

Model 70/110-1

Code (75 kg) 613 07 001

Code (200 kg) 613 07 001 H

Change applies to the following drawer units:

- Drawer units 70/110 and 70/140
- Drawer units 90/110 and 90/140
- Drawer units 130/110 and 130/140

After the update older models (85% opening, 80 kg loading) will no longer be available.

Technical data:

- External drawer unit dimensions remain the same as before
- Internal drawer dimensions remain the same as before
- All drawers fully opening
- Drawers loading capacity 75 kg or 200 kg
- 50 mm high drawers available only as 75 kg version

Item codes and availability:

- Present item codes: loading capacity 75 kg
- Present item codes with H at the end: loading capacity 200 kg
- Available in week 18
- Additional information and price available from customer service and sale sales@treston.com
