

TRESTON

DEDICATED TO HUMAN WORKSPACE

New Products & Solutions team at your service

A whole new Products & Solutions team has been launched in the Treston Group organization, with a wide range of responsibilities in product management and sales support.

The new team consists of Product Group Managers as well as the product development and product design team.

The Product Group Managers are responsible for product management, pricing and training as well as sales and customer service support activities within their own product groups. The product development and product design team's responsibilities

are product development, product design and offer calculation for clients who need special applications.

Our key role is to develop competitive products for chosen segments and make both selling and buying as smooth as possible. Therefore, the theme of the year 2015 is "Making the difficult easy".

Director, Products & Solutions

Heikki Härmälä

heikki.harmala@trestongroup.com

We are revising our product colours:

Our new visual identity features two standard colours

All of Treston's steel products for technical work environments, storage and goods handling will be epoxy powder coated in light grey RAL 7035 (ESD) and/or blue RAL 5007 colours.

The light grey is familiar from the technical workstations at our factory in Turku, and the blue from the tools storage units of the Workshop range made in Jyväskylä. These colours are available for delivery within our standard times.

We will also be offering factory colours, of which RAL 7038 (ESD) is the previous standard grey colour used in Jyväskylä, RAL 3002 is the red familiar from the Workshop range, and RAL 7045 is the darker grey colour previously used in Turku. Factory colour products are made to order.

Standard colours

Factory colours

As of 1st of June 2015 RAL 7035 (ESD) will be introduced to our product offering as a standard light grey also for Jyväskylä products. Colour code for this new standard light grey is -49. Please note that the change has already been implemented for the drawer units and accordingly updated item codes can be found in the latest edition of the Ergonomic workspaces catalogue.

PRODUCT NEWS 2015

STORAGE AND CHARGING TROLLEY 75/76,
1 x 100, 2 x 300. Product code 872800-49

Tablets and laptop-computers are becoming more and more common-place in the modern school environment. As a solution for their safe storage, Treston presents a storage and charging trolley. The trolley is designed for storing and charging of tablets and laptop-computers. As a storage unit the trolley is very handy, because it is secure and easy to move around the premises.

Storage and charging trolley comes with two bigger drawers both have room for 16 tablets or laptops. At the back of both drawers are energy rails for 14 chargers. One smaller drawer has an energy rail with 8 schuko sockets. The bottom of each drawer is covered with soft rubber mat and also dividers have protective edges.

The trolley comes with two fixed Ø150 mm castors and two Ø100 mm swivel castors with brakes. Smooth operating wheels with an ergonomic handle makes moving of the trolley very easy. Top of trolley also has a non-skid rubber mat.

Locked safely inside the trolley you can store and charge 2 x 14 tablets. Additionally on top drawer is available for charging, for example, a teacher's laptop, digital camera and so on.

The trolley comes with schuko power cord through which all energy rails inside drawers are powered. When not in use the power cord can be connected to an adapter attached to the handle of the trolley.

Product Group Manager, Light assembly
Jonna Patama

TECHNICAL DATA

- Made from powder painted sheet metal RAL 7035
- Dimensions: (W x D x H) 750 x 520 x 900 mm, (dimensions with handles 850 x 550 x 900 mm)
- Two Ø150 mm fixed wheels, two Ø100 mm swivel wheels with brakes
- Drawers 1 x 100, 2 x 300
- Drawers come with telescopic ball bearing slides
- Max load 30 kg/drawer
- 5 energy rails with on/off-switch
- Central locking with 2 keys
- Max dimensions for tablets/laptops: 325 x 285 mm
- Minimum distance between dividers is 12 mm and they can be adjusted in 17 mm steps

NEW LED SIDE LIGHT
Product code 861920-00

As a latest addition to our range of lights we now introduce new side light **Satellite LED**. The design of the new light is similar to **HiLite LED** and the bracket is the same as **Satellite 36**. But the **Satellite LED** is 160 mm shorter than **Satellite 36**. Light output is the same for both **Satellites**, but the **Satellite LED** has lower power consumption and longer lifetime.

Both **Satellite** lights can be mounted to **Concept**, **TP** and **Workshop** light-/balancer rails and also to **WB Support bracket HSB**.

Product Group Manager, workshop
Mika Puronaho
mika.puronaho@trestongroup.com

TECHNICAL DATA

- Dimensions (W x D x H) 155 x 340 x 50 mm
- Input power 20W
- Illuminance 800lx +/- 10% (1 meter distance)
- Color temperature 4000K
- Color rendering index (CRI) >80
- Color consistency max 3,5 SDCM
- Enclosure protection IP20
- Lifetime 50000h (B50L70)
- Operating temperature: -20 - +40°C (for lifetime of 50000h)
- Max operating temperature +55°C
- Input voltage 220-240V

SLIDING DOOR TOOL CABINET
Product code ROTK1500 / ROTK 2000

We have now a new sliding door tool cabinet. The cabinet is possible to fix straight on table tops, to the wall or to the benches with perforated upright tubes (**Workshop**, **Concept**, **TP**). The code includes brackets for the upright tubes. When using the R-hooks in the cabinet the hooks must be fixed with screws.

We have two modules of the cabinet M1500 and M2000. Special dimensions are not possible. The cabinet is painted in light grey (RAL 7035), no other colours are possible. The cabinet is non ESD.

TECHNICAL DATA

- ROTK1500 with brackets 1500 x 252 x 800 mm (W x D x H), depth 240 without brackets
- ROTK2000 with brackets 2000 x 252 x 800 mm (W x D x H), depth 240 without brackets
- Internal depth for cabinet is 150 mm
- Max load 30 kg
- Doors are plastic
- Lock is Ronis

HEAVY DUTY WORK- BENCHES HDB AND HDBL

As a part of our product rationalization we have narrowed down our selection of heavy duty workbenches. Workbenches HDB and HDBL are no longer manufactured. HDB and HDBL are available for three months or until we run out of stock. Our current selection of heavy duty workbenches can be found in our 2014-2015 Distinctive Workshops catalogue.
